BEAUTIFUL BATHROOM DESIGNS
TO SUIT YOUR LIFESTYLE

NKBA

2014 DESIGN COMPETITION WINNERS

LARGE BATHROOM 1ST PLACE

Double Take:

Remodeled to suit the needs of growing twin boys, this bathroom offers equal sized vanities, plenty of storage for both shared and personal items, and a masculine vibe. Traditional details like crown molding and marble tile respect the architecture of the home while elements such as the decorative glass tile and zero-overhang stone caps offer an updated look.

Designer: Leslie Lamarre, CKD.

MASTER BATHROOM SUITE 1ST PLACE

Master, Sweet!

A pyramid-vault, beetle-killed wood ceiling provides a stunning backdrop for the raindrop-glass chandelier that overhangs this clean-lined master bathroom suite. Featuring large-format, vein-cut travertine tile and custom, beechwood cabinetry, the space offers views of the wooded property in three directions, a shower for two with changing area; custom "his" and "hers" closets with built-in dressers; and a hot water tap for shaving at "his" side of the vanity.

MEDIUM BATHROOM 1ST PLACE

Guest Bathroom:

Transformed from forlorn to fabulous, this guest bathroom now welcomes visitors with its warm tones, clean lines and updated look. The plumbing layout didn't change, but the redesign removed an old tub, a stifling wall and outdated finishes. The new space is both visually and physically more open and features leathered Taj Mahal quartzite slab, glass accent tile, and a wood-like porcelain accent wall.

Designer: Leslie Lamarre, CKD. **Co-Designer:** Casey Darcy

SMALL BATHROOM 1ST PLACE

Pool Bathroom:

Added as part of a whole-house remodel, this pool bathroom serves double duty as the bathroom for the home's new guest suite. The client wanted a calming space with a beach-like feel that could be at once casual enough for pool goers and tailored enough to help guests feel special. Materials include sand-inspired limestone tile, ocean-inspired tumbled glass tile and mariner sconces.
